In combination with a "Laser in Medicine" basic course (Sachkundekurs), this course is recognized as a specialized training course (Fachkundekurs) in accordance with the certification guidelines of the German Society of Laser Medicine. The course has applied for CME credits (ECMEC) by the European Accreditation Council for Continuing Medical Education (EACCME).

Directions

Parking, how to find us by car

Coming from the A5 freeway:
 Take the Freiburg-Mitte exit | Head toward Freiburg and follow the signposts for Universitätskliniken | Drive across Friedrich-Ebert-Platz and into Hugstetter Strasse, past the Department of Dental, Oral, and Jaw Medicine, and to the Robert Koch Clinic

Coming from the B3 or B31 highways:
 Head toward downtown Freiburg and follow the signposts for Universitätskliniken | Drive across Friedrich-Ebert-Platz and into Hugstetter Strasse, past the Department of Dental, Oral, and Jaw Medicine, and to the Robert Koch Clinic

How to find us using public transportation

Streetcar:
 Route 5: Disembark at stop Robert-Koch-Strasse or Friedrich-Ebert-Platz

Bus:
 VAG Route 10, SBG Routes 7200, 7206, 7212: Disembark at stop Robert-Koch-Strasse

Breisgau urban railway (S-Bahn):
 Disembark at stop Klinikum

Invitation

Dear colleagues,

After ten successful Expert Meetings on Laser Application in Thoracic Surgery, we cordially invite you to our 11th meeting in December 2017.

Optimal treatment of our patients deserves optimal technical equipment. This is especially true in patients with lung metastases. In more or less every one of these patients we encounter a different situation. This ranges from simple wedge resections to complex resections in cases of multiple metastases or metastases which are in the vicinity of the central vascular and bronchial structures of the lung. With the introduction of a new generation of surgical laser systems with a wavelength of 1,320 nm we now have an optimal instrument which allows dissecting the lung parenchyma in a superior fashion.

Furthermore, this laser is also applicable for endotracheal and endobronchial problems. Therefore, it is an interesting tool which is useful in different clinical situations and applications.

The aim of our workshop is to demonstrate the usefulness of the laser technology for pulmonary diseases. On the first day we will have an introduction into laser technology and the theoretical aspects of pulmonary metastasectomy. Additionally, there will be live demonstrations on laser lung surgery as well as on endotracheal applications. On the second day all participants have the opportunity to work in the wet-lab with the laser equipment.

We wish all participants an interesting and fruitful insight into the state-of-the-art technique of the resection of pulmonary metastases and shall provide ample opportunity for discussions with colleagues from different countries.

Bernward Passlick, M. D.

Organization

Program

Thursday, December 7th, 2017

- 8:20 a.m.** Registration at the hotel
- 8:40 a.m.** Bus transfer to University Freiburg, Robert-Koch-Klinik Department of Thoracic Surgery
- 9:00 a.m.** Word of welcome/introduction
Prof. Dr. med. B. Passlick
- 9:05 a.m.** Technical basics of medical laser systems, optical fibers and applicators
PD Dr. med. R. Sroka
- 9:35 a.m.** Safety rules and practical advice for using the laser in the OR
PD Dr. med. R. Sroka
- 10:35 a.m.** **Coffee break, snack**
- 10:50 a.m.** Technological innovations improving pulmonary laser resections
Dr. med. S. Wiesemann
- 11:10 a.m.** Pulmonary laser resections: technical aspects
Prof. Dr. med. B. Passlick
- 11:40 a.m.** Indications and results of pulmonary metastasectomy for different primary tumors
Prof. Dr. med. B. Passlick
- 12:10 p.m.** The role of lymphadenectomy in pulmonary metastasectomy: Does it make sense?
PD Dr. med. S. Welter
- 12:40 p.m.** **Lunch**
- 1:40 p.m.** Case example of a laser-assisted surgery Auditorium at Universitätsklinikum Freiburg and OR Interactive, live video transmission from the OR
- 3:00 p.m.** Endotracheal and endobronchial laser application
Dr. med. M. Elze
- 3:15 p.m.** Endobronchial laser application: practical exercises on simulation devices
- 5:00 p.m.** Bus transfer to hotel
- 6:00 p.m.** Social evening

Program

Friday, December 8th, 2017

- 7:45 a.m.** Bus transfer to IRCAD, Strasbourg, France
- 9:30 a.m.** Demonstration of laser system, resection of lung metastases in the wet-lab
- 12:00 noon** Round-table discussion and hand-over of certificates
- 12:30 p.m.** **Lunch**
- 1:30 p.m.** Bus transfer to Freiburg

Lecturers

- Dr. med. M. Elze** Universitätsklinikum Freiburg
Department of Thoracic Surgery
- Prof. Dr. med. B. Passlick** Universitätsklinikum Freiburg
Department of Thoracic Surgery
- PD. Dr. med. R. Sroka** Klinikum der Universität München
Laser Research Laboratory
- PD Dr. med. S. Welter** Lungenklinik Hemer
Department of Thoracic Surgery
- Dr. med. S. Wiesemann** Universitätsklinikum Freiburg
Department of Thoracic Surgery

Scientific Director

Fax: +49 (0) 761 270 2499 0

Registration

I hereby bindingly accept your invitation to the 11th Advanced Training Course on "Expert Meeting on Laser Application in Thoracic Surgery" to be held in Freiburg on December 7th and 8th, 2017.
Please register _____ persons in my name.

Course Fee: 695.– EUR/per person (including 19% VAT)

This fee includes live operations, practical exercises in the wet-lab, lectures, certificate, social evening on Thursday, catering during the course, bus transfer to hotel and social evening, accommodation with breakfast from December 6th to 8th, 2017 (2 nights).

Attendance is limited. Applicants are accepted on a **first-come, first-serve basis**.

General Terms and Conditions:

Applicants are accepted in the order their written registrations are received. Please note, that your attendance to the course can only be reserved after the complete receipt of the **payment**. Cancellations are possible up to 6 weeks prior to the start of the course but a handling fee of 100 Euros will be charged. Subsequently, the course fee is not refundable.
